

**AN INVITATION FOR FREE ONLINE
PROFESSIONAL LEARNING**

The Science of Surprise!

An interactive webinar where you engage in intriguing science activities with surprise outcomes. These activities provide opportunities to excite students and promote curiosity for 'teachable' moments, either in an online setting or the classroom.

This workshop is presented by Deakin Science Educators, based on current, extensive evidence-based research, informing teaching practice and meaningful student learning.

In this workshop you will:

- participate in a range of engaging and high quality 'hands on' practical activities targeted at primary and lower secondary school
- implement inquiry based learning in the classroom or at home in the virtual classroom, linked to curriculum
- collaborate on best practice approaches to teaching and learning to support, create and sustain inclusive classrooms, including in the remote environment
- explore how digital technologies can be used as a platform for effective teaching and learning

Date: Tuesday 2nd June **Time:** 3.30pm – 4.30pm
